Are you seeking to build your competency as a global leader?

Are you driven to help young entrepreneurs to build their dreams into realities?

*If so, check out United Planet's UP Your LeadershipTM program and
Discover Cuba Quest—both departing in October !*

Boston, MA—Two new programs of United Planet, a nonprofit in Boston with a mission to foster cross-cultural understanding beyond borders, offer the business community— corporate and non profit leaders—the opportunity to both build competencies as global leaders and to help young entrepreneurs to build their dream of success in business into a reality.

UP Your LeadershipTM is a global leadership development experience set in an emerging market set in Quito, Ecuador, in which participants are supported by professional coaches and have the opportunity to build leadership plans for themselves and their organizations. The week-long program is designed to build competencies in global leadership. The program runs from **October 10-14, 2016** and will be lead by Executive Coach Shannon Wallis, the former Global Director of High Potential Leadership Development at Microsoft, and a leader in the field of leadership program design. Community projects are facilitated by United Planet. Applications are currently accepted through **Monday, September 5.**

Discover Cuba Quest (October 15-19, 2016*) — is another opportunity for your business colleagues to make a difference in an emerging market, working with young Cuban entrepreneurs to train them and help them actuate their ideas. This would be a great option for those in the business field to support Cuba's future while learning about a brand new market. Applications are due **August 22.** *United Plan offers these experiences in Cuba every two months. Please contact quest@unitedplanet.org for dates and details.

Either program can be customized specific to your organizational needs!
